

Please note the following before filling in the notification:

- You cannot make this notification for a vehicle that is lost, abandoned or stolen.
- You can make this notification if the buyer has not registered the vehicle in his/her name and you do not know the buyer's name, address and the exact date of transfer. Make a normal, free of charge notification of transfer if you have the above-mentioned information.
- The date to be entered as the date of transfer in the transport register is the date when Traficom has received reliable evidence on the transfer, not the actual date of transfer.
- Submit the notification at a vehicle inspection office. The vehicle inspection office will charge a fee for it and forward the notification to Traficom. A notification submitted directly to Traficom will not be processed.

For the notification to be processed, please fill in every section of the form

Vehicle details	Registration number	Make	
	Vehicle identification number
