

Notification of transfer of a vehicle to an unknown party

Please note the following before filling in the notification:

- You cannot make this notification for a vehicle that is lost, abandoned or stolen.
- You can submit a notification if the buyer has not registered the vehicle in their name and you are unable to verify the buyer's name and address details. Make a normal, free of charge notification of transfer if you have the above-mentioned information.
- The date to be entered as the date of transfer in the transport register is the date when Traficom has received reliable evidence on the transfer, not the actual date of transfer.
- Submit the notification at a vehicle inspection office. The vehicle inspection office will charge a fee for it and forward the notification to Traficom. A notification submitted directly to Traficom will not be processed.
