In Finland, a driving licence extract printed from the service is as valid as a driving licence extract certified by Traficom. Check with the recipient in advance whether an extract printed from the service is sufficient.

Order a certified copy of your driving licence extract using this form if the recipient requires a stamped and signed extract or if you cannot use My e-Services.

A certified copy of a driving licence extract is subject to a fee. The invoice will be sent after the extract has been delivered.
