Content of examiner assessment of competence AMC1 FCL.1020	CONDUCT OF THE ASSESSMENT An inspector of the competent authority or a senior examiner will observe all examiner applicants conducting a test on a 'candidate' in an aircraft for which examiner certificate is sought. Items from the related training course and test or check schedule will be selected by the inspector for examination of the 'candidate' by the examiner applicant. Having agreed with the inspector the content of the test, the examiner applicant will be expected to manage the entire test. This will include briefing, the conduct of the flight, assessment and debriefing of the 'candidate'. The inspector will discuss the assessment with the examiner applicant before the 'candidate' is debriefed and informed of the result.	
	BRIEFING THE 'CANDIDATE' The 'candidate' should be given time and facilities to prepare for the test flight. The briefing should cover the following: (1) the objective of the flight; (2) licensing checks, as necessary; (3) freedom for the 'candidate' to ask questions; (4) operating procedures to be followed (for example operators manual); (5) weather assessment; (6) operating capacity of 'candidate' and examiner; (7) aims to be identified by 'candidate'; (8) simulated weather assumptions (for example icing and cloud base); (9) use of screens (if applicable); (10) contents of exercise to be performed; (11) agreed speed and handling parameters (for example V-speeds, bank angle, approach minima); (12) use of R/T; (13) respective roles of 'candidate' and examiner (for example during emergency); (14) administrative procedures (for example submission of flight plan). The examiner applicant should maintain the necessary level of communication with the 'candidate'. The following check details should be followed by the examiner applicant: (1) involvement of examiner in a MP operating environment; (2) the need to give the 'candidate' precise instructions; (3) responsibility for safe conduct of the flight; (4) intervention by examiner, when necessary; (5) use of screens; (6) liaison with ATC and the need for concise, easily understood intentions; (7) prompting the 'candidate' about required sequence of events (for example following a go-around); (8) keeping brief, factual and unobtrusive notes. Remarks	Section ☐ pass ☐ fail
	ASSESSMENT The examiner applicant should refer to the flight test tolerances given in the relevant skill test.
