Signature	Place and date	Signature and name in block letters

¹ This column is for details of relatives or other parties able to provide additional information regarding the beacon holder for search and rescue authorities

INSTRUCTIONS

It is important to fill in the application accurately. This is to secure that search and rescue authorities have necessary background information of the beacon and its holder.

Details of applicant:

Private persons must provide their date of birth, if not having a Finnish personal ID. Business ID is needed for a company and association registration number for an association.

Beacon details:

Search and rescue authorities may need the information regarding the use of PLB and its registration.

During the licensing procedure TRAFICOM makes the identification details of PLB beacon and licensee available to search and rescue authorities.

Beacon programming:

The country code of Finland (230) and the individual identification number must be programmed into the beacon. This individual identification number is issued together with radio licence and is written in the licence.

The beacon will be programmed by the service company of the dealer in the following way:

- If the beacon is fitted with an internal satellite positioning device (such as GPS), "NATIONAL LOCATION PROTOCOL" must be used.
- If the beacon is NOT fitted with an internal satellite positioning device, "SERIAL USER PROTOCOL" must be used.

Contact details in case of emergency:

¹ This column is for details of relatives or other parties able to provide additional information regarding the beacon holder for search and rescue authorities.

Frequency fee:

For the possession and use of the beacon an annual frequency fee is collected. This fee is based on valid legislation.

The validity time of a radio licence is stated in the licence. Most radio licences will be renewed and sent to the licence holder automatically without a separate application. However, the licence holder may withdraw the licence with a written information to TRAFICOM.
